

Is My Child on Track for a Good ACT/SAT Score?

What MAP (RIT) Scores Can Tell You: A One Page Guide

Step 1: Learn about the ACT or SAT scores that are required to be admitted at different colleges and universities. You can do that at:

<http://www.collegesimply.com/guides/colleges-by-test-score/>

This site provides you with the average SAT and ACT scores for different schools, and with the scores for the 25th and 75th percentile of the entering freshman class.

For example, at the University of Colorado/Boulder, the average ACT scores is 26, while the 25th percentile score is 24 and the 75th percentile score is 29.

Step 2: NWEA (the organization that produces the MAP Assessments) provides the following table showing fall and spring MAP scores for a student who is on-track to score a 24 on the ACT Reading and Math Assessments. Unfortunately, that is the highest ACT score for which they produce these tables. A 24 on the ACT is equal to a 550 on the SAT Critical Reading test, and a 560 on the SAT Math test.

Minimum MAP Score To Be On-Track for ACT = 24		
-- which is equal to SAT 550 in Critical Reading		
-- and SAT 560 in Math		
Grade	Reading	Math
5/Fall	212.62	221.33
5/Spring	217.94	229.74
6/Fall	218.32	229.63
6/Spring	222.87	236.82
7/Fall	223.21	236.84
7/Spring	227.04	242.85
8/Fall	227.31	242.96
8/Spring	230.46	247.83
9/Fall	230.61	247.99
9/Spring	233.11	251.56
